1. INTRODUCTION

Dayananda Sagar College of Architecture recognizes the importance of environmental conservation and sustainable practices in shaping a better future for society and the planet. As stewards of the built environment, we acknowledge our responsibility to minimize our ecological footprint and promote sustainable development principles. This policy outlines our commitment to integrating environmental consciousness and sustainability into all aspects of our operations, education, and community engagement.

Objectives:

1. To educate students, faculty, and staff about the importance of environmental sustainability and empower them to integrate sustainable practices into their academic work and daily lives.
2. To minimize the environmental impact of college operations by reducing energy consumption and waste generation
3. To promote the integration of sustainable design principles, such as energy efficiency, passive design strategies, and use of environmentally friendly materials, in architectural education and research.
4. To engage with local communities and stakeholders to promote sustainable development practices and address environmental challenges collaboratively.
5. To support interdisciplinary research initiatives focused on addressing pressing environmental issues and developing innovative solutions for a sustainable built environment.

3. IMPLEMENTATION AND MONITORING

1. Establish a Sustainability Committee comprising representatives from faculty, staff, and students to oversee the implementation of the environmental and sustainability policy.
2. Develop an action plan with specific targets, timelines, and responsibilities for achieving the objectives outlined in the policy.
3. Regularly monitor and evaluate progress towards sustainability goals, identify areas for improvement, and adjust strategies and initiatives as needed.
4. Promote transparency and accountability by regularly communicating progress and achievements to the college community.

By adhering to this environmental and sustainability policy, Dayananda Sagar College of Architecture reaffirms its commitment to fostering a culture of environmental stewardship, promoting sustainable design practices, and contributing to the creation of a more resilient and sustainable built environment for current and future generations.
